Profile

I am a Front end developer with 3 years of profesional experience. Using React.js, Javascript, Typescript, CSS3, HTML5, Tailwind CSS, Node.js, Express.js, Golang, Svelte. All along an Agile methodology.

Experience

Front end Consultant mar 2022 - ene 2023

Apex Systems, Guadalajara, Jalisco

Involved in the succesfully integration of payment methods at an Ecommerce project I worked as a front end consultant. Developed a variety of chores using React.js, Typescript and PHP. All along an agile methodology.

Software Engineer jul 2021 - mar 2022

IBM, Guadalajara, Jalisco

I developed features for a quote-to-cash webapp in a highly competitive team. I worked as a front end developer for this project using React.js, React hooks, Styled components, Golang, Jest and TestingLibrary. All with a Agile methodology.

Front end Developer ene 2021 - jul 2021

Zeti.ia, Tampico, Tamaulipas

Starting projects from scratch and developing the design and interactivity of the UI of a AI website. I worked with Svelte and Typescript. Tailwind CSS. Making components and styling for an web app.

Backend experience

My main experience is Frontend but I am not unfamiliar with backend. I have worked with backend in my jobs (Node.js, Express.js, Golang) and I know I am ready for a backend or full-stack position

Formation

Computer Systems engineer jul 2018 - dic 2022

Instituto Tecnologico de Ciudad Madero, Ciudad Madero, Tamaulipas
